# CHPC CONFERENCE SPONSORSHIP AGREEMENT

1-5 December 2019

The CHPC National Conference is an opportunity for HPC consumers and industry to converge and discuss the latest developments and innovations in this fast-paced industry.

As HPC extends to all corners of competitive industry and drives research initiatives in academia, the CHPC National Conference is the foremost platform for interaction and knowledge sharing in the technology and innovation space and a lucrative launchpad for vendors seeking to showcase their latest offerings.

- **Main Conference:** 2 - 4 December 2019. Birchwood Conference Centre, Kempton Park, Gauteng.
- **Workshops & Tutorials:** 1 & 5 December 2019. Birchwood Conference Centre, Kempton Park, Gauteng.

## → Our zones

1. **MAIN PLENARY ZONE** This is where captains in HPC industry and academia from around the world share their knowledge and experiences and projections for the HPC of tomorrow.
2. **WORKSHOPS ZONE** These dynamic, parallel spaces will allow vibrant discussions on the various topics encompassed in high performance computing. Delegates will have the opportunity to interact and engage in discussions with presenters and with each other.
3. **EXPO ZONE** Designed to showcase solutions by leading technology companies; this zone is targeted at a diverse audience of businesses, government and consumers.
4. **CONNECTION ZONE** This collaborative space will allow sponsors to connect in private discussions.

## → Why sponsor

The CHPC National Conference is currently the only HPC gathering in the Southern Hemisphere and an excellent opportunity for suppliers of HPC solutions to meet consumers.

The meeting brings together industry and academic HPC users as well as potential users. The SADC Partnership Forum will form part of the conference and will work on the HPC Framework for the SADC region.

The Industry Cross-fire Session is a plenary session and will feature sponsors battling out against an interrogation of their services/offerings from a panel of HPC international inquisitors. These are companies with interest in the booming African HPC market.

## ➔ Sponsorship Opportunities

We offer a range of sponsorship opportunities designed to meet your needs and resources.

Your exhibition will extend through the hundreds of attendees over the five-day event and will allow us to sponsor a number of students in our quest to build the HPC pipeline in South African and Africa. The CHPC may request that a sponsor's commitment be in kind for the same value, where the centre may request that a sponsor directly cover an international speaker's return flights, conferencing items such as childcare services, a master of ceremonies or entertainment.
