

Bing Xie

Oak Ridge National Laboratory

Dr. Bing Xie is an HPC Systems Engineer at the Oak Ridge Leadership Computing Facility (OLCF) of Oak Ridge National Laboratory, where she is a member of Technology Integration Group. Her research focuses on network communication across deep learning frameworks, performance analysis and optimization on the hierarchy of petascale file systems, and resource management and scheduling for workflows in cloud and HPC clusters. Bing received a Ph.D from the Computer Science Department of Duke University in 2017.
