

Ms Carmel Walsh
Australian Research Data Commons

Ms Carmel Walsh is the Director, eResearch Infrastructure & Services at the [Australian Research Data Commons \(ARDC\)](#). The ARDC provides Australian researchers with competitive advantage through data. It does this by enabling the Australian research community and industry access to nationally significant, data intensive digital research infrastructure, platforms, skills and collections of high quality data.

Carmel leads on storage and compute with a focus on the national research cloud compute service for Australian researchers, the [ARDC Nectar Research Cloud](#), and national [Data Retention](#) project.
