

Cyber Security Symposium: Defensive Artificial Intelligence

Machine learning in Cloud Security to enable defenders to work smarter

A special session of the 2021 CHPC National Conference

14:00 – 16:15, Thursday, 2 December 2021

Taryn Woods

Darktrace

Taryn Woods is a young cybersecurity professional with over 6-years experience in the industry. She values the ability to communicate cybersecurity strategy with senior executives as well as technical staff. “Being able to translate between both layers has enabled me to orchestrate faster, smoother and more effective engagements.”

She joined Darktrace two years ago. “I am incredibly passionate about AI/ML and how it is applied to information security. I am fascinated and inspired with Darktrace’s continuous innovation and ultimately aligning to our customer challenges, particularly around automation. My personal mission is to guide companies to enable their business and empower their human teams through a more sustainable cybersecurity approach, creating a more resilient environment in the process and solving real-world problems.”
