

Biography of Ahmed Al-Jeshi
Regional Director, HPC & AI - Middle East, Turkey, and Africa at Intel

Ahmed is currently the MEA HPC and AI Regional Director at Intel Corporation. In his current role, Ahmed handles the relationship with executives and technical decision makers from Energy, Research, Government, Academic, and some Industrial customers in the Middle East and Africa region to help them ensure that they get the most out of their investment in High Performance Computing and Artificial Intelligence Clusters as well as educating them on the latest trends in his field.

Also, Ahmed has served in many boards throughout his career. Currently, he is a board member and the Technical Chair of the Annual Saudi HPC/AI Conference and a board member of the Enterprise Board of Advisors for King Fahd University of Petroleum and Minerals.

Prior to joining Intel, Ahmed worked for Microsoft where he was also leading their HPC efforts in the MEA region and then he was appointed as Commercial Sector Accounts Manager in Saudi Arabia. Before that, Ahmed worked at Power and Water Utility Company for Jubail and Yanbu (Marafiq) and SBM in different technical and managerial roles.

Ahmed holds three degrees: a Bachelor's Degree in Computer Engineering with Honors from King Fahd University of Petroleum and Minerals in Saudi Arabia, an MBA Degree with Honors from University of Bahrain, and a Master Degree in Business Analytics and Big Data from IE University in Madrid, Spain.
